Responsive to the Official Action mailed February 27, 2003, the Applicant elects, with
traverse, Group III, Claims 12-19 for further prosecution.

REMARKS

The Office has restricted this application as follows under 35 U.S.C. §121:

- Group I: Claims 1-3, 9-11 (in part) and 4-7, drawn to a method of making a highly phosphorylated acid β -glucocerebrosidase (GBA) using hybrid GlcNAc phosphotransferase encoded by SEQ ID NO:1.
- Group II: Claims 1-3, 9-11 (in part) and 8, drawn to a method of making a highly phosphorylate GBA using human GlcNAc phosphotransferase encoded by SEQ ID NO:3.
- Group III: Claims 12-19, drawn to a highly phosphorylated GBA obtained by the method of Claim 1, a pharmaceutical composition comprising thereof and methods of use thereof.
- Group IV: Claims 20-25, 31-33 (in part) and 26-29, drawn to a method of making a highly phosphorylated GBA using hybrid GlcNAc

phosphotransferase encoded by SEQ ID NO:1.

- Group V: Claims 20-25, 31-33 (in part) and 30, drawn to a method of making a highly phosphorylated GBA using human GlcNAc phosphotransferase encoded by SEQ ID NO:3.
- Group VI: Claims 34-41, drawn to a highly phosphorylated GBA obtained by the method of Claim 20, a pharmaceutical composition comprising thereof and methods of use thereof.
- Group VII: Claims 42-51, drawn to a highly phosphorylated GBA encoded by SEQ ID NO:24, a pharmaceutical composition comprising thereof and methods of use thereof.
- Group VIII: Claim 52, drawn to a method of making a highly phosphorylated GBA.
- Group IX: Claims 53-61, drawn to a highly phosphorylated GBA obtained by the method of Claim 52, a pharmaceutical composition comprising thereof and methods of use thereof.

Applicant has elected Group III, Claims 12-19 with traverse.

Applicant respectfully traverses on the grounds that the Office has not shown that a burden exists in searching the entire application.

Further, MPEP §803 states as follows:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on its merits, even though it includes claims to distinct or independent inventions.

Applicant submits that a search of all claims would not constitute a serious burden on the Office.

Additionally, MPEP §821.04 states:

...if applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims which depend from or otherwise include all the limitations of the allowable product claim will be rejoined.

Applicant requests that upon finding that the elected group is allowable, the

corresponding non-elected process claims be rejoined. For the reasons set forth above,
Applicant contends that the Restriction Requirement is improper and should be withdrawn.

Respectfully submitted,
OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
